LEADERSHIP & VOLUNTEERING

XTREME ACTION MOLLERUSSA
2015-2016
An extreme activities tournament organized by the City Council and my team and I. In charge of the marketing, tests planning and execution.

CHRISTMAS GAMES AT THE HOSPITAL • Hospitalidad Santa Teresa Foundation
2019
We planned and executed, during several days, fun activities for kids in the hospital.

ABOUT ME

I am a software engineering student focused on product management and information systems. I am ambitious towards my future and the impact I want to create. I believe that being disciplined and constant is the basis to carry out any project as well as having a good education and team.

WORK EXPERIENCE

INTERN/ORGANIZER • FIB Visiona
2020-PRESENT
FIB Visiona organizes job fairs to connect students and companies. My job as an organizer was to:
- Choose and put all needed platforms together for our first online fair.
- Schedule meetings with companies to convince them to participate or explain all procedures, from technologic to legal issues.
- Fix and update both the frontend and the backend of our website.

ACADEMICS

DEGREE OF COMPUTER SCIENCE • Universitat Politècnica de Barcelona (UPC)
2018-PRESENT
Currently in my fourth year. Specialization in software engineering.

BARCELONA INTERNATIONAL YOUTH SCIENCE CHALLENGE (BIYSC)
La Pedrera Foundation & Barcelona Supercomputing Center (BSC)
2018
This international program's aim was to design our own drug variant to improve the detoxification process of opioid addicts. This was done in the BSC where we were introduced to the computer-aided drug discovery world.

PROGRAMA ARGÓ ELECTRONIC ENGINEERING • Universitat Autònoma de Barcelona (UAB)
2017
Pre-university program to learn about the basis of electronic engineering and execute lab sessions with the university's machinery.
